

HOPE

#dailyhumanrights

HOPE, is a social sculpture developed by Franz Wassermann for the 70th anniversary of the Declaration of Human Rights 2018 and will be continued in the 2021 program commemoration "Never forget and resist the beginnings!".

Dear fellow human being,

we entrust you with this bulb of an Amaryllis - or Knight Star - and place it in your care, making you part of HOPE, a social sculpture. It is now in your hands how you take care of the flower.

In order to make the sculpture visible, we ask you to regularly document the growth of the amarilly bulb with photos and then publish them online under the hashtag *#dailyhumanrights* on the various social platforms such as Facebook, Instagram, etc. We also ask you to share them with others. We also ask you to send them to Franz Wassermann (kontakt@mylivingroom.org).

Thank you for being part of the social sculpture HOPE and for sharing a symbol of concern for human rights. *#dailyhumanrights*
